The following models may be used on the Jewish Sabbath or the Jewish Holidays (Yom Tov) when placed in the “Holiday Mode for Sabbath/Holiday Observance.”

- The door can be opened/closed at any time without concern of directly turning on or off any lights, digital readouts, solenoids, fans, valves, compressor, icons, tones or alarms.
- Any defrost cycle that becomes active will not be a function of the number of times or the length of time that the door is opened.
- In the event of a power failure, when power returns, the unit will return to this mode.
- The Beverage Dispenser is permitted for use on Shabbos and Jewish holidays, because it is “powered” by a CO<sub>2</sub> cartridge.
